

## CONTENTS OF VOLUME 17

### *Number 1*

Mechanical Behaviour of Bimodulus Laminated Plates V. J. PAPAZOGLOU & N. G. TSOUVALIS (Greece)	1
Numerical Simulation of the Influence of Stacking Sequence on Transverse Ply Cracking in Composite Laminates J. BRILLAUD & A. EL MAHI (France)	23
Applying a Quadriaxial Extensometer to the Strain Analysis of Anisotropic Structures M. GRÉDIAC, A. HACHANI & A. VAUTRIN (France)	37
Optimum Design of Composite Wing Structures by a Refined Optimality Criterion INE-WEI LIU & CHIEN-CHANG LIN (Taiwan)	51
Spring Simulated Delamination of Axially-Loaded Flat Laminates J. S. ANASTASIADIS & G. J. SIMITSES (USA)	67
<b>Technical Note</b>	
Optimization of the Bending Stiffness and Strength of Composite Sandwich Panels J. C. M. THEULEN & A. A. J. M. PEIJS (The Netherlands)	87
Announcement	93

### *Number 2*

The Design of Doubly Curved Sandwich Panels with Honeycomb Cores K. E. EVANS (UK)	95
The Fatigue Behavior of Composite Laminates under Various Mean Stresses A. ROTEM (USA)	113
Damage Evolution in Laminated Advanced Composites S. P. JOSHI & G. FRANTZISKONIS (USA)	127
Bending of Laminated Orthotropic Cylindrical Shells — An Elasticity Approach T. K. VARADAN & K. BHASKAR (India)	141
Variational Analysis of Interfacial Stress Intensity Factors for Finite Bimaterial Plates under Biaxial Load WEI-CHUNG WANG & JIN-TZAIH CHEN (Taiwan)	157
Book Review	181
Announcements	182

*Number 3*

Design of Composite Straps . . . . .	187
EHOUD GRAFF & GEORGE S. SPRINGER (USA)	
Three-Dimensional Elastic-Plastic Analysis of Laminated Composite Plates . . . . .	213
A. NANDA & T. KUPPUSAMY (USA)	
Natural Frequencies for Cantilevered Doubly-Curved Laminated Composite Shallow Shells . . . . .	227
MOHAMAD S. QATU & ARTHUR W. LEISSA (USA)	
Analysis of Fatigue Delamination Growth in Carboresin Specimens with Central Hole . . . . .	257
M. BEGHINI, L. BERTINI & E. VITALE (Italy)	

*Number 4*

Reliability Analysis of Continuous Fiber Composite Laminates . . . . .	277
DAVID J. THOMAS & ROBERT C. WETHERHOLD (USA)	
Influence of Predetermined Delaminations on Buckling and Postbuckling Behavior of Composite Sandwich Beams . . . . .	295
M. SOMERS, T. WELLER & H. ABRAMOVICH (Israel)	
Strength of Sandwich Beams with Interface Debondings . . . . .	331
DAN ZENKERT (Sweden)	
A Generalized Navier's Approach for Solution of Clamped Moderately-Thick Cross-Ply Plates . . . . .	351
HUMAYUN R. H. KABIR & REAZ A. CHAUDHURI (USA)	
Book Review . . . . .	367
